

## ASEAN Outstanding Engineering Achievement Award 2019

## IES Prestigious Engineering Achievement Award 2019

THE INSTITUTION  
OF ENGINEERS,  
SINGAPORE

“... Another example is the *Next-Generation Hybrid Air-Conditioners* developed by Ecoline Solar Pte Ltd. These significantly reduce energy consumption of compressors while harvesting solar heat.

This has enabled buildings, such as hostels at the Nanyang Technological University, to achieve the BCA Platinum Green Mark Award. Thousands of these air-conditioners have been installed locally and overseas...”

*Dr Amy Khor, Senior Minister of State for the Environment and Water Resources*
